ENJOY A BROCCOLI DIP.. SO MANY THINGS TO DO!

SPONSOR: HILLTOP GARDEN COUNCIL, INC.

WALK THRU THE GARDEN AT HILLTOP

SUNDAY, SEPTEMBER 24, 1978

OUR PLAN FOR OUR GUESTS:-

A walk through the garden is for your pleasure, first. Look, smell, touch, and listen..also, rest for there are so many benches and places to sit in the Council Ring. Changes as a new season has set in are noticed at once for it is autumn in the garden. Colors have not been revealed where green now is still dominant but in another 2 weeks the maples, the sassafras, the ash, redbud, black gum, and the tulip tree will be in flame.

This afternoon there are 6 major stops for you since these areas are probably your concerns at home or for your new homes.

THE FLOWER GARDEN OR THE HERBACEOUS BORDER

AZALEA AND RHODODENDRONS

HERBS

ROSES

WOODLAND GARDEN

VEGETABLE GARDEN

OUR INFORMATION WILL INCLUDE THE VARIETIES USED AND COMMENTS ON USEFUL QUALITIES

THEN, LET US SHARE WITH YOU THE MANAGEMENT METHODS WE USE IN THIS GARDEN AS RELATED TO THE PLANTS IN PREPARATION FOR THE WINTER...THEN THE MANAGEMENT OF THE SOIL, EVER KEEPING IN MIND THE CONTINUOUS STRUGGLE TO CREATE A SOIL THAT IS PRODUCTIVE..PLANTS BOTH BEAUTIFUL AND CAPABLE OF GIVING YOU ALL THEY CAN BECAUSE THE CONDITIONS ARE GOOD FOR THEIR EXPRESSION.

IN OTHER WORDS, IF YOU ARE GROWING TOMATOES, THEN WORK TO HAVE AN ENVIRONMENT IN WHICH EACH PLANT CAN PRODUCE AT LEAST 30-35 pounds OF FRUIT. IT CAN BE DONE!

WE HAVE ALSO PLANNED TO HAVE YOU ENJOY TASTING BROCCOLI RAW USING SOME DIPS. BY THE POOL WE HAVE SOME PLANTS YOU WILL ENJOY TAKING HOME, THE WATER PLANTS TO FLOAT IN A GLASS BOWL, SOME BRANCHES OF IMPATIENS AND COEUS WHICH IF PLACED IN AN ATTRACTIVE VASE WILL SOON ROOT AND YOU CAN ENJOY BOTH THE ROOT SYSTEMS AS WELL AS THE FOLIAGE. THANKS FOR COMING!
